Dear brother and sister,

Can't write much. we had orders come in for candy, we are all so upset over Lou's going away and work till over the house in such condition. thought felt not to try to make candy to day, but orders have come in so that Bus and Cassie come about we velvet to make more. they will be here for dinner, also Odewig, she has a hard cold, and is home to day, that makes three extra I was not planning on. Selma has been all in. Can't not even get the children ready

for school, but she finally
placed Mr Roberts. has seen her
to see him and looks and feels
so much better. They took Sam
yesterday left here about 9-20,
he was anxious to go. They had
dinner at Waukegan, he ate heartily
and enjoyed that, was pretty
tired when they got to their
stopping place, he is assigned to
St Marys of the Hills. Lela says
very pretty quiet and so clean
after they had seen there about
ten minutes. Mr Tolal his nurse
to take him to his room. They
gave him a bath, put him to bed
then Lela says the only one who
saw him, she said he looked
so restful and quiet, tears came
to his eyes when she left - but he

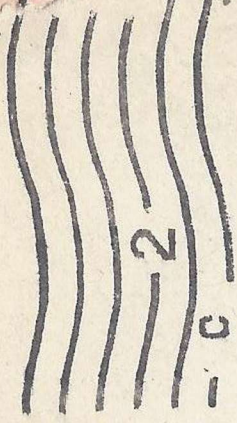

was all right - and nothing
do should go. Lela felt discour-
aged. Or said he would not
say what he thought - for at
least a week, will keep him
in bed, and watch + examine
him in every way, it seems hard
to say if that's a relief. For
we don't have to watch much
more all the time, so we
felt. But knows what a writer
and seeing it has seen, we all
begin getting afraid, he got
so he was careless about any
things would use to work
him instead of toilet, when
he needs water, talked every
thing to my body. Or Stutz is
sure he can be helpful if he can

He made 10 full instructions.
